Blu Site Solutions' severe weather plan was developed to help our customers and our company prepare for hurricanes and other severe weather. This plan will help us minimize damage, ensure safety, and get service back up and running as quickly as possible.

## POLICY

1. Preparation for the severe storm will begin 72 hours prior to expected landfall.
2. All weekly service will be stopped at least 48 hours prior to expected landfall or when we deem it necessary to begin securing our own facilities.
3. Upon request we will pump the restroom tanks dry on your scheduled service day(s).
4. ALL equipment that is on barrier islands and waterways will have priority over land locked areas.
5. IF the equipment must be picked up there will be a pick up and re-delivery fee and must be requested five business days before the storm event.

In preparation for a hurricane, there will be times that we will be unable to pick up all our units. While the unit is in your possession it **will be your responsibility to make every effort to secure it**. At your request, we will pump the unit dry proceeding the hurricane on the regularly scheduled service date before predicted landfall. Here are some suggested ways to secure your equipment:

- A. If possible, place inside a garage or covered storage area, or against a building. This will be the best placement.
- B. Secure it to a solid tree, telephone pole, or dumpster using at least a 2" ratchet strap.
- C. Keep the door facing a heavy object or structure to prevent easy opening in the winds.
- D. Weigh down the restroom by placing concrete blocks on the floor.
- E. Strap multiple units together with doors facing each other.

## THINGS TO CONSIDER

1. Acts of nature are uncontrollable. Patience and understanding in times of crisis are very much appreciated. Service delays may be expected as our service times will take longer to get back on our normal schedule.
2. Blu Site Solutions is not responsible for any damage done from units that the customer has rented. It is the full responsibility of the customer to try and secure their job sites the best they can on all rented equipment.
3. Getting service back up to full speed is our highest priority and we will try to accomplish this as soon as we can.

Thank you for your support and help in this time of uncertainty. It will help you and Blu Site Solutions continually provide the service you have come to expect. If you have any questions you may reach us at **(800) 682-7023**. You may also email us at [info@blusitesolutions.com](mailto:info@blusitesolutions.com) or visit our [website](#) and [Facebook](#) page for updates.

Sincerely,

Operations
